BASS POWERED SUB

5-D Pro Audio is supported by High Definition Audio Technology. 5-D Pro Audio transmits three different frequencies which are high, medium and low frequency. 2-way full range speaker on the top will transmit high and medium frequency and individual 1-way bass subwoofer / bass speaker located at the bottom will transmit low frequency. When these three frequencies transmit all together, it will deliver 3-ways enhance live sound as 5-D Pro Audio.
